

REMARKS

Applicant appreciates the time and courtesy extended by the Examiner during the July 29, 2008 telephone interview with Applicant's representative. During the interview, Applicant's representative and the Examiner discussed the claimed manner in which the applicator head moves when reaching a corner region while forming a spacer. As also discussed during the interview, Applicant agreed to amend the independent claim to clarify this feature. Thus, Applicant believes the above-noted amendment to Claim 1 clarifies the features of this claim.

Accordingly, for the reasons discussed during the telephonic interview, as well as for the reasons set forth in Amendment B, filed June 23, 2008, Applicant respectfully submits that independent Claim 1 and associated dependent Claims 4-7 should be in condition for allowance. As also discussed during the interview, if the Examiner is of the opinion that any outstanding issues exist, or that further change to the claims are necessary, the Examiner is invited to contact the undersigned attorney.

Respectfully submitted,
GREER, BURNS & CRAIN, LTD.
